Gas Balance Report

With the integration of ATCO Pipelines (AP) and NOVA Gas Transmission Ltd. (NGTL), AP has detected an error with its Gas Balance report.

An error has been found in the September 2007 opening balance used on the Gas Balance reports. The September 1, 2007 opening balance included Gas Recoveries to the end of June 2007 and the August 2007 inventory imbalances, but omitted the Gas Recoveries for July 2007.

The inventories transferred to NGTL by AP do not agree with the Gas Balance Report, with the primary difference being the July Gas Recovery not being included in the September 2007 opening balance of the Gas Balance report. As a result the closing balances of the Gas Balance Report are incorrect.

The inventories transferred to NGTL included the July 2007 Gas Recoveries and are correct.
